

Australia PM's adviser: climate change is UN hoax to create new world order

Maurice Newman, chairman of Tony Abbott's business advisory council, says UN is using debunked climate change science to impose authoritarian rule.

The Australian prime minister's chief business adviser has accused the [United Nations](#) of using debunked climate change science to lead a new world order – provocative claims made to coincide with a visit from the top UN climate negotiator.

Christiana Figueres, who heads the UN framework convention on climate change, touring Australia this week, urged the country to move away from heavily polluting coal production.

Maurice Newman wrote: 'It's about a new world order under the control of the UN.'

Under Tony Abbott's leadership, Australia has been reluctant to engage in global climate change politics, unsuccessfully attempting to keep the issue off the agenda of the G20 leaders' summit in Brisbane last year. Maurice Newman, the chairman of Abbott's business advisory council and a climate change sceptic [with a history of making provocative statements](#), said the UN was using false models showing sustained temperature increases to end democracy and impose authoritarian rule.

"The real agenda is concentrated political authority," Newman wrote in [an opinion piece published in the Australian newspaper](#). "Global warming is the hook. It's about a new world order under the control of the UN..

"It is opposed to capitalism and freedom and has made environmental catastrophism a household topic to achieve its objective."

Figueres used an address in Melbourne to urge Australia to move away from coal, the country's second-largest export, as

the world grapples with global warming.

“Economic diversification will be a challenge that Australia faces,” she said.

Abbott has described coal as “good for humanity” and the “foundation of prosperity” for the foreseeable future.

Figueres also urged Australia to play a leading role at the climate summit in Paris in December, a call unlikely to be heeded given Abbott’s track record.

At the Brisbane G20 meeting, he warned that the Paris summit would fail if world leaders decided to put cutting carbon emissions ahead of economic growth.

At home, Abbott, who in 2009 said the science behind climate change was “crap”, repealed a tax on carbon pricing and abolished the independent Climate Commission advisory body.

Asked on the Canberra leg of her trip if the politics around renewable energy was as toxic elsewhere in the world, Figueres said: “No. At the global level what we see is increased participation of renewables, increased investment in renewables, increased excitement about renewables.”

Abbott’s office and the UN did not immediately respond to requests for comment.

SCRIPTURE & THOUGHTS:

“And the ten horns which you saw are ten kings which have received no kingdom as of yet, but receive power as kings one hour with the beast. These have one mind...” Revelation 17:12-13

The prophecy must come to pass that there are ten kings, united in one cause who have received no kingdom ready to meet the judgments that are to fall upon the earth. The dragon has seven heads, five were fallen, which are the five kingdoms of the world: Babylon, Media-Persia, Greece, Pagan Roman Empire, Papal Roman Empire. Then it says that one kingdom in the vision was: this was America, at which time the Papacy is given a renewed worldwide reverence as the woman who sits enthroned upon the dragon, even though she is that very same woman who persecuted the saints in the dark ages and has not changed according to God's Word. At this time when she is mounting up her power in the time of America, it is said "I will show you the judgment of the great whore (the Papacy) who sits upon many waters (enthroned in the midst of people, nations, tongues, etc.)". On September 24th, it was the Day of atonement, the "Day of judgment", in the Bible. It was in America that the Papacy addressed the legislative committee of the United States of America, the United States Congress, and was received with equal honors on the scale of a newly elected president: a sign indeed that the prophecy brought to view for John in the days of America is brought to view for us in its beginning phase. It shows forth the heart of America as being the key proponent of exalting the Papacy. At this time, we see the formation of a "Sustainable Development Agenda" put forth by the United Nations, and ratified in Paris.

This will go into effect for 2016, and changes will begin taking place in 2020 according to the United Nations. This however is the development of a united effort to bring new legislative powers, a new kind of kingdom, into dominance. Do not be fooled. This agenda is bringing this "world order" into fruition thus fulfilling this prophecy. By that time, it will be too late to choose for Christ, because the judgments will be ripe to fall. However, the Papacy will be exalting from this time until then, and gain more and more power, and will be drunk with the power she is given, her and all who profess Christianity and desire political legislative enactments to

sustain it's cause, because God's hand is not sustaining it. This will happen until the kings of the earth, who set up this system while the Papacy is enthroned upon the nations, will realize they are lost. Thus fulfilling the prophecy:

"And the ten horns which thou sawest upon the beast, these shall hate the whore, and shall make her desolate and naked, and shall eat her flesh, and burn her with fire." (Rev. 17:16)

God's judgment is fulfilled on this unholy woman, because she has played the harlot. Thus fulfilling the words in the judgment of God:

"And the daughter of any priest, if she profane herself by playing the whore, she profaneth her father: she shall be burnt with fire."
(Lev 21:9)
